
Carrick Wilson

Software Developer

(206) 834-5830 carrickjwilson@gmail.com | <https://github.com/cjw206>

SKILLS

Languages: C#, JavaScript, TypeScript, SQL

Frameworks/Libraries: .NET Framework, ASP.NET, ASP.NET Core, Entity Framework, Angular, AngularJs, Git, NodeJs, VueJs, JQuery

Tools: Visual Studio, Visual Studio Code, TFS, Jira, Docker, Azure, DigitalOcean, SQL Server

EXPERIENCE

AmeriBen IEC Group, Meridian ID - *Software Developer*

September 2015 - April 2018

- Led a project to modernize an internal application. This included gathering requirements from departments across the company, planning, designing, delegation of tasks, and writing substantial portions of the new application including unit tests. The old application took up to 9 hours for larger files where as the new one took merely 3 minutes. This application is used daily, and reduction of time greatly eliminated burdens not only on the staff but also on the servers as well.
- Created RESTful service to email custom welcome letters to members. This application was built using ASP.NET Web API.
- Created a internal website that can assign member IDs to new members. This was built with ASP.NET MVC, JQuery, and Entity Framework.
- Created internal web application to do file validation on EDI 834 files. This was built with ASP.NET Web API and AngularJs.
- Responsible for supporting and enhancing production applications. This consisted of somewhere in the ballpark of 100 applications. On an average week I may have fixed bugs and or pushed new features to 10 to 15 applications. This consisted of complex SQL scripts, C# applications, web projects and services utilizing ASP.NET Web API or MVC, UI applications built with Angular, AngularJs, JQuery, HTML5, and Bootstrap.
- Main contributor on project to move all applications to Git on TFS instead of TFSVC on TFS.
- Trained in HIPAA compliance.

AmeriBen IEC Group, Meridian ID - *Support Clerk*

April 2014 - September 2015

- Worked independently performing data entry, document filing and mail delivery.

EDUCATION

South Seattle College, Seattle WA -*Computer Science*

September 2012 - June 2013

Mount Rainier High School, Des Moines WA -*High School Diploma*

September 2006 - June 2010
